Mick Schanilec  
Area Supervisor  
Priest Lake State Forest  
4053 Cavanaugh Bay Road  
Coolin, ID 83821

Dear Mick,

Like you I was unable to make the field trip to look at proposed harvest areas earlier this month. All reports were that it was excellent. Your foresters had clearly been thoughtful in setting boundaries and cognizant of sensitive habitats. This was evident both through conversation and in the boundary markings and tree selections reviewed.

We appreciate Ron's willingness to assure that specific road usage provide a buffer to the small population of *Lycopodium dendroidum* (aka "groundpine") a sensitive clubmoss which the group encountered, and you and I have sought in the past.

Again, thank you so much for working cooperatively with Kinnikinnick Chapter to protect our unique sensitive plant species while fulfilling your mission of funding Idaho's schools.

Sincerely,

Molly O'Reilly
